- Supplies Needed: Clay, dowel, plastic knife, leaves, paper, Aluminum foil , bowl, mod podge (optional).
- Instructions: See next page!

**Bible Adventures:** Peter and John teach about Jesus (Acts 3:1-4:31)

**Link:** <https://www.youtube.com/watch?v=taemEfg5VE>

**Activity:** Work as a team to carry each person into the room one at a time. Then, work together to build a jail (think fort materials). Take turns going inside the jail and creatively share a message of Jesus' love with others in the room.

**Younger Track (Preschool-Grade 1)-**

- Questions-
  - How does it feel when someone needs to help you with something you want to do yourself?
  - What is your favorite thing about Jesus? Who could you share that with that maybe doesn't already know about it?
  - Show someone in the room your bold superhero pose.

**Older Track (Grades 2-6) -**

- Questions-
  - How does it feel when you want to do something yourself but can't (not able to or not allowed to)?
  - What are your memories about the first time you learned about Jesus?
  - Describe a time when you'd need to be bold to share about Jesus (it might be more challenging than other times). What can you do to help with this situation?

### Day 3: Clay Leaf Bowls

#### Supplies included in your kit:

- Clay in a bag
- Six-inch wooden dowel
- Plastic knife

#### Supplies not included:

- Leaves
- Paper to work on
- Aluminum foil (plastic wrap works fine if you are air-drying your clay)
- A bowl or canning ring (oven safe if you are planning to bake your clay)
- Mod podge (optional)

#### What to do:

1. Choose some leaves from your yard or a park
2. Use the dowel to roll out some clay to form a pancake about 1/8<sup>th</sup> inch thick (about the thickness of a hardcover book cover). Work on a piece of paper so your clay doesn't get stuck to the table.  
Note: the clay must remain damp, so use only as much as you need and keep the rest in the sealed bag or under a damp cloth.
3. Check whether the clay pancake you've made is big enough to fit your whole leaf. If it's not, roll the clay out more, add more clay if you need it, or choose a smaller leaf.
4. Lay the leaf on your clay pancake, making sure it all fits. Then roll over the leaf with your dowel to press it into the clay.
5. Use the plastic knife to cut around the outer edge of your leaf. Don't worry about the stem. Save the leftover clay, keeping it damp.
6. Carefully lift the leaf from your clay and set the clay leaf into a bowl (or canning ring) that is covered with aluminum foil. The bowl (or canning ring) is what gives shape to your leaf.
7. Your leaf bowl will harden on its own if left out to dry for a few days. If you want to speed things up, you can place your oven safe bowl (lined with aluminum foil) in a 250° oven for about 20 minutes. It will harden further as it cools.
8. You can coat your cooled leaf bowl with Mod Podge to add protective shine. This is not required.
9. Depending on the size of your leaves, you have enough clay to make more than one bowl.
